

## Appendix 1

### 6. Windows

Windows must be provided at the sides and at the rear of the vehicle. The light transmission of any window in any position must not be less than that currently required of the front windscreen and side windows by The Road Vehicles (Construction & Use) Regulations 1986.

The light transmission through the windows of vehicles, including those licensed prior to the introduction of this regulation may not be reduced in any way from that present when the vehicle was approved for licensing.

APPENDIX 2.

**To:** CRAMER Jill  
**Subject:** Privacy Glass

Dear Jill,

Further to our telephone conversation, please can i request that we could use our executive vehicles with privacy glass that has been installed by the manufacturer i.e Toyota Privia and Crysler Voyager as these vehicles do 50% of our work in london and home counties.

These vehicles have been fitted with the privacy glass as standard, it is also what our VIP clients request when booking, without these vehicles it would be impossible for us to continue in buisness and compete with our competitors in London whom have been granted permission to use the glass from the local council.

Please could you look into this matter for me as these vehicles are only doing one or two jobs per day which are mostly out of oxfordshire.

Best Regards

Nisar
