

Agenda Item 3

East Area Planning Committee 11 May 2016
Agenda Item 3 – Barton Park Allotments 16/00442/RES

Updates to the report

The applicant has asked that it be noted that:

Paragraph 22.

Improved and new facilities within the existing allotment hut - the final decision as to what works will be carried out is to be left with the allotment association working in conjunction with the applicant.

Paragraph 29.

Parking was shown / discussed with the association as part of the pre application consultation but, while plans have certainly been developed in conjunction with the allotment association, the developer cannot confirm whether the association has formally agreed at their meeting that the parking is adequate.

Paragraph 30.

the developer cannot confirm whether the association has formally this approach at their meeting but confirms that the current arrangement where any plot holders who cycles to the allotment cycle directly to their plot is as stated.
