

East Area Planning Committee

2nd November 2016

Application Number: 16/02406/FUL

Decision Due by: 28th November 2016

Proposal: Change of use of Canterbury House, Adams House and Rivera House from use as offices (falling within Use Class B1(a) of the 1987 Use Classes Order) to use as 48 student study rooms with ancillary facilities together with landscaping, disabled car parking, bin and cycle storage.

Site Address: Canterbury House 393 Cowley Road Oxford, Site Plan
Appendix 1

Ward: Cowley Marsh Ward

Agent: Mr Simon Sharp

Applicant: A2 Dominion Homes And
Cantay Estates Ltd

Recommendation:

East Area Planning Committee is recommended to approve the application for the reasons below and subject to and including conditions and the satisfactory completion of a S106 to secure a contribution to affordable housing and to delegate authority to the Head of Planning and Regulatory Services to issue the permission after the public consultation expiry date of 7th November subject to no new material issues arising before the end of that consultation.

Reasons:

- 1 The proposed development provides student accommodation in a sustainable and appropriate location that preserves the special character and appearance of Canterbury House which is a non-designated heritage asset and the street scene. There would be no harm to adjoining neighbours. The proposal accords with the Policies contained within the Local Development Framework and NPPF.
2. Officers have considered carefully all objections to these proposals. Officers have come to the view, for the detailed reasons set out in the officers report, that the objections do not amount, individually or cumulatively, to a reason for refusal and that all the issues that have been raised have been adequately addressed and the relevant bodies consulted.

Conditions:

1. Time – 3 years
2. Plans – in accordance with approved plans

3. Materials – to match
4. Construction Traffic Management Plan – details prior to construction
5. Contamination – validation report prior to occupation
6. Car parking & turning – in accordance with approved plans
7. Cycle & bin storage – further details prior to substantial completion
8. Sustainability –details of PV's/ CHP to be submitted prior to construction
9. Surface water Strategy &SUDS – details to be submitted.
- 10.Landscape plan – details of hard and soft landscape planting required; prior occupation
- 11.Landscape – planting carry out after completion
- 12.Details of boundary treatment prior to occupation
- 13.Student Accommodation and Out of Term Use (no conference use)
- 14.Student Accommodation – General Management Protocol – operated in accordance with
- 15.Travel Plan
- 16.Travel Info Pack
- 17.Students - No cars
- 18.Restrict hours of use of outside amenity space; 08:00 and 21:00
- 19.Biodiversity – measures for wildlife details of 8 swift boxes; prior commencement;
- 20.Archaeology – Photographic recording; Canterbury House; prior construction

Legal Agreements:

S106 to secure affordable housing contribution

Note: The County requested a contribution towards a Controlled Parking Zone however this is covered under CIL.

CIL:

The development is liable for CIL: £86,265.65

Main Local Plan Policies:

Oxford Local Plan 2001-2016 (OLP)

CP1 - Development Proposals

CP6 - Efficient Use of Land & Density

- Natural Resource Impact Analysis SPD
- Parking Standards, Transport Assessments and Travel Plans SPD
- National Planning Policy Framework (NPPF)
- Planning Practice Guidance (PPG)

15/02542/OUT - Change of use of Canterbury House, Adams House (Block B) and Rivera House (Block C) from Class B1 Business use to 36 student study rooms with ancillary facilities. Outline application (seeking access, layout and scale) for 3 storey building (Block A) to provide 24 student study rooms with ancillary facilities.(amended plans)(additional info). Approved 12th July 2016

Relevant Site History:

Relevant planning history at the site is set out below:

00/01326/NOY - Demolition of depot building, offices, hostel/social club and ancillary buildings. Outline application for residential development of 227 dwellings (houses and flats) and 287 parking spaces: 2,322m², managed business space (starter units) and associated parking. Provision of 1.52 acres grassland area adjoining Barracks Lane. Closure of 1 vehicular access to Cowley Road and alterations to second vehicular access. Extension of Saunders Road into site, new vehicular accesses between 17 and 18 Saunders Road. Provision of vehicular access to Glanville Road (means of access only). Approved: 6th August 2002.

00/01327/NOY- Demolition of depot building, offices, hostel/social club and ancillary buildings. Outline application for residential development of 227 dwellings (houses and flats) and 287 parking spaces: 2,322m², managed business space (starter units) and associated parking. Provision of 1.52 acres grassland area adjoining Barracks Lane. Closure of 1 vehicular access to Cowley Road and alterations to second vehicular access. Extension of Saunders Road into site, new vehicular accesses

between 17 and 18 Saunders Road. Provision of vehicular access to Glanville Road (means of access only). Withdrawn: 2nd August 2002.

09/01201/OUT - Outline application (seeking access and layout) for the erection of 2,092m² of class B1 floorspace for start up businesses plus 106 student study rooms in 5 blocks on 2, 3 and 4 levels (including the retention and incorporation of Canterbury House). Provision of 28 car parking spaces accessed off Reliance Way, and 3 car parking space off Glanville Road, cycle parking and landscaping. Approved: 17th March 2010.

11/01150/RES - Reserved matters of planning permission no. 09/01201/OUT (for 2,092m² of class B1 Business floor space and 106 student study rooms), seeking approval of appearance of block B and C and of the student accommodation block. Approved: 12th August 2011.

11/02386/VAR - Variation of condition No. 7 of planning permission 09/01201/OUT for Class B1 business use and student accommodation to allow occupation and student accommodation by full time student attending courses of one Approved: 1st February 2012.

12/00457/VAR - Application to vary condition 2 of planning permission 09/01201/OUT and condition 1 of planning permission 11/01150/RES to allow a revised commercial parking layout. Approved: 1st June 2012.

11/01150/NMA- Application for a non-material minor amendment to planning permission 11/01150/RES involving alterations to Commercial Buildings B and C. Approved: 25th June 2012.

13/01925/B56 - Application for prior approval for change of use from offices (use class B1(a)) to 3 x 1-bed and 13 x 2-bed dwellings (use class C3). Refused: 11th September 2013.

13/02673/B56 - Change of use from office (Use Class B1(a)) to residential (Use Class C3) to provide 16 dwellings (3 x 1-bed and 13 x 2-bed). Prior approval required and refused 13th November 2013, allowed at appeal and later quashed by the courts. Appeal subsequently withdrawn.

15/00360/B56 - Change of use from office (Use Class B1(a)) to residential (Use Class C3) to provide 3 x 1-bed and 1 x 2-bed flats. This application is for determination as to whether prior approval of the Council is required and, if required, whether it should be granted. This application is assessed solely in respect of transport and highway impacts and contamination and flooding risks. Approved on Appeal 8th December 2015.

14/03204/OUT - Outline planning permission (all matters reserved) was sought for the demolition of the existing office accommodation at Rivera House and Adams House and the construction of up to 98 student study rooms with provision for disabled car parking. Dismissed on appeal on grounds of, amongst other things, relating to impact and proximity to the non-heritage asset of Canterbury House, impact on street scene and inadequate (quality/ amount of) amenity space in relation

to both student accommodation and flats. However, loss of employment use for the whole of the site accepted by Inspector. Dismissed 8th December 2015.

15/00597/OUT - Outline planning permission (access, layout and scale) was sought for the erection of a four-storey building consisting of 4 x 1 bedroom and 4 x 3 bedroom flats including amenity space, car parking and waste storage. Dismissed on appeal on grounds of, amongst other things, relating to impact and proximity to the non-heritage asset of Canterbury House, impact on street scene and inadequate (quality/ amount of) amenity space in relation to both student accommodation and flats. However, loss of employment use for the whole of the site accepted by Inspector. Dismissed 8th December 2015.

15/02542/OUT - Change of use of Canterbury House, Adams House (Block B) and Rivera House (Block C) from Class B1 Business use to 36 student study rooms with ancillary facilities. Outline application (seeking access, layout and scale) for 3 storey building (Block A) to provide 24 student study rooms with ancillary facilities.(amended plans)(additional info). Approved 12th July 2016.

16/01226/FUL - Change of Use of Canterbury House, Adams House and Rivera House from Class B1(a) office use to 38 student study rooms and ancillary facilities. Erection of a part two and half, part three storey building to provide 22 further student rooms and ancillary facilities.. Withdrawn 8th June 2016.

16/01973/FUL: Change of use of Canterbury House, Adams House and Rivera House from Class B1(a) office use to 48 student study rooms and ancillary facilities. Full planning permission for the erection of a three storey building to provide 30 further student rooms and ancillary facilities. Pending consideration.

Public Consultation:

The period for consultation expires on 7th November; any further comments will be reported verbally to committee. Delegate to Head of Planning and Regulatory Services to issue the permission after the public consultation expires on 7th November on the basis that any new public representations received do not raise new material issues.

Neighbours:

One objection received from the owner of 391 Cowley Road adjacent regarding location of the bins store and collection points, noise from moving bins for collection etc. and smell in close proximity to the property.

Statutory Consultees:

Thames Water: *Waste Comments*: Thames Water would advise that with regard to sewerage infrastructure capacity, we would not have any objection to the above planning application. *Surface Water Drainage*: With regard to surface water drainage it is the responsibility of a developer to make proper provision for drainage to ground, water courses or a suitable sewer. In respect of surface water it is recommended that the applicant should ensure that storm flows are attenuated or regulated into the receiving public network through on or off site storage. When it is proposed to connect to a combined public sewer, the site drainage should be separate and

combined at the final manhole nearest the boundary. Connections are not permitted for the removal of groundwater. Where the developer proposes to discharge to a public sewer, prior approval from Thames Water Developer Services will be required. *Water Comments:* On the basis of information provided, Thames Water would advise that with regard to water infrastructure capacity, we would not have any objection to the above planning application.

Natural England: Statutory nature conservation sites – no objection: Natural England has assessed this application using the Impact Risk Zones data (IRZs) and is satisfied that the proposed development being carried out in strict accordance with the details of the application, as submitted, will not damage or destroy the interest features for which Iffley Meadows and Lye Valley SSSI's have been notified. We therefore advise your authority that these SSSI's do not represent a constraint in determining this application.

Highways Authority: No objection subject to conditions relating to Travel Info Pack, Travel Plan, SUDs, Student Accommodation Management Plan, Parking and Turning Space in Accordance with Specified Plan, Students no cars to Oxford, No out of term conference use, Construction Traffic Management Plan.

Officers Assessment:

Application Site & Background:

1. The application site comprises part of what was formerly the Oxford Bus depot and lies along the north-eastern side of Cowley Road on the corner of Reliance Way. To the southeast and east lie the modern residential properties of Reliance Way on the rest of the former bus depot. It is approximately midway along Cowley Road between The Plain at one end and Cowley District Centre at the other. Its location is such that it is not located within any of the City's designated transport district areas. However it is well served by public transport and close to supermarket amenities.
2. The site comprises 3 existing buildings: the Victorian Canterbury House which although vacant has permission to change to residential use under the recent appeal decision (15/00360/B56). It was once formerly both the home and studio of renowned Oxford photographer Henry Taunt and is a non-designated heritage asset. To the north of the site are the vacant office buildings of Adams House and Riviera House. To the front of the site is a vacant building plot adjacent to the Cowley Road.
3. Approval was granted earlier this year under a hybrid application for full permission for conversion of these three existing buildings and outline for a new building (on the vacant road frontage plot) for student accommodation comprising a total of 60 student study bedrooms with ancillary facilities, landscaping, bin and bicycle storage, 3 disabled car parking spaces and a new pedestrian access into the site from Cowley Road (15/02452/OUT refers). This is a material consideration in determination of this case.

Description of Proposed Development:

4. This application is solely for the conversion of the existing buildings Canterbury House, Adams House and Riviera House to provide a total of 48 student study bedrooms with ancillary facilities, landscaping, bin and bicycle storage, 3 disabled car parking spaces access into the site from Reliance Way. This would result in an increase of 12 student rooms over and above that previously approved in respect of those buildings under 15/02452/OUT as flows:

<u>Approved</u>	<u>Proposed</u>
Canterbury house: 10 rooms	12 rooms; an increase of 2 rooms
Adams House: 13 rooms	18 rooms; an increase of 5 rooms
Riviera House: 13 rooms	18 rooms; an increase of 5 rooms
Total: 36 rooms	Total: 48 rooms

5. The proposal also involves minor alterations to the fabric of these buildings including alteration, relocation and bricking up of certain windows, and the provision of PV's on the roofs of Adams House and Riviera House. In other respects the proposal is the same as previously approved e.g. access(es), parking layout, cycle parking location, bins store/ collections points.
6. Officers' consider the principal determining issues in this case are:
 - Principle of Loss of Employment Site;
 - Quantity & Quality of Student Accommodation
 - Appearance
 - Affordable Housing;
 - Access and Parking;
 - Impact on Neighbouring Amenity;
 - Energy efficiency;
 - Flood risk;
 - Ecology;
 - Trees/Landscaping;
 - Land contamination;
 - Archaeology.

Principle of Loss of Employment Site:

7. The loss of employment use for the whole of the site (i.e. existing office blocks of Adams House & Riviera House, the vacant road frontage site and Canterbury House) was accepted in the determining and approval of the previous hybrid application 15/02542/OUT in July this year following the Appeal decision on the previous appeals (14/03204/OUT, 15/00597/OUT. & 15/00360/B56 refer).
8. The previous permission 15/02542/OUT is therefore a material consideration in this case and represents a fall-back position. Officers therefore advise

Committee that the loss of employment use, for the reasons set out in those earlier decisions, is also considered acceptable in this case. Consequently the change of use of the existing office buildings Adams House, Riviera House & Canterbury House to residential use is considered acceptable under CS28 of the CS.

Quantity and Quality of student accommodation:

9. Policy CP6 of the Local Plan seek to ensure efficient use of Land and appropriate density relative to the site and its context. Policy CS25 of the Core Strategy encourages the provision of high quality purpose-built student accommodation buildings that do not significantly harm the amenity enjoyed by local residents. The policy also states that the Council will seek appropriate management controls to restrict students from bringing cars to Oxford through the imposition of appropriate conditions or planning obligations. Policy HP5 of the SHP and its supporting text at paragraph A2.35 requires student accommodation development of the size proposed to provide both communal indoor and outdoor space that ensures occupants have space to gather, socialise and hold events.
10. The development would result in an increase in 12 rooms over that previously approved and has been achieved by re-working the layout; reducing the size of the study bedrooms which were generous in size and showed double beds. Each now provides for a single bed and occupant with enough space for an ensuite and desk etc. Also in Adams and Riviera Houses a kitchen/ common room is provided on each floor. In this case the outdoor space is for 48 rooms and would be a decent amount of space, and in the absence of a building on the vacant plot, would be 10% of the overall site area in accordance with Policy HP5(e) of the SHP.
11. It is considered that the development makes more efficient use of the existing space and would still provide adequate size bedrooms, kitchen/ common rooms and outdoor space. Furthermore, an increase in 12 rooms would have relatively little impact on overall student numbers on this site (excluding the vacant element to the front which is being considered under a separate application). The proposal is therefore considered to accord with policies CP6 of the OLP, HP5 of the SHP and CS25 of the CS.

Appearance:

12. Local Plan policies CP1, CP6, CP8, CP9 and CP10 together seek to secure high quality, efficient, contextually appropriate, successful and functional development. Core Strategy policies CS18 and C19 reinforce those objectives and seek to protect the value of heritage assets.
13. The proposal would involve the bricking up of several windows in Adams House and Riviera House and some relocated and new windows in Canterbury House. It is proposed to use matching materials. It is considered that these changes would not be harmful to the character and appearance of

these buildings or the non-designated heritage asset, and as such accord with the above policies. A condition would ensure materials to match.

Affordable Housing:

14. Policy HP6 of the SHP requires student accommodation providing 20 or more bedrooms to make a financial contribution towards off-site provision of affordable housing in the interests of creating mixed and balanced communities. The applicant has indicated that in the event of an approval, they would be willing to enter in to a legal agreement to secure such a contribution in accordance with HP6 of the SHP.

Access & Parking:

15. The new pedestrian access and four car parking spaces is as previously approved and is adequate in this sustainable location with good bus services. Students will be required not to bring cars to Oxford, HP16 of the SHP refers, and the Applicant confirms this would be the case in their submitted General Management Protocol, which can be secured via condition. This protocol also sets out how drop off and pick up at terms times will be managed (also secured via condition). The HA also state that out of terms use as a conference accommodation is not suitable in this location due to the limited parking on site and pressure for parking in the surround streets. This is considered reasonable and can be secured by condition also.
16. 60 secure and covered cycle parking spaces are proposed in two areas towards the back of the development which exceeds the minimum set out in HP15 of the SHP. Further details of their appearance can be secured via condition.
17. The proposal accords with Policies HP14 & HP15 of the SHP and CS25 of the CS.

Impact on Neighbouring Amenity:

18. Policies CP1 and CP10 of the Local Plan require new development to adequately safeguard neighbouring amenity. Policies CP19 and CP21 of the Local Plan resist development where it would result in unacceptable noise and disturbance for neighbouring residents. The supporting text to Policy HP5 of the SHP recognises the problems that large numbers of inappropriately sited student rooms can have, given the increased activity on quieter residential streets. It also recognises that student accommodation can have an adverse impact on the character of residential areas when inappropriately sited. The supporting text to Policy CS25 of the Core Strategy states that there should be no unacceptable impact on amenity for local residents.
19. Policy HP5 seeks to concentrate non-allocated new student accommodation on existing academic sites, in city/district centres or along main thoroughfares which includes Cowley Road. This is to prevent speculative student accommodation developments taking place in residential areas which can

have a significant impact on the character of an area and the quiet enjoyment of surrounding homes.

20. The principle of 60 student bedrooms has been accepted on this site. It should be noted that the floor plans of the previous approval for these buildings show double bedrooms and there would be the potential for double occupation and therefore more students. It is considered therefore that there would be no significant increase in harm to neighbouring residential amenities in terms of noise and disturbance from 12 additional rooms within these buildings, amounting to 48 in total. The site is to be operated by A2 Dominion (joint applicant) who have their Head Office and other student accommodation nearby at Chapel Street. In addition, they have submitted a General Management Protocol which includes, amongst other things, details of how students will be staffed/ managed, arrival/ departures at term time, and restriction on use of the courtyard after 9pm for access purposes only (as previously conditioned under 15/02542/OUT).
21. An objection has been received from the owner of 391 Cowley Road adjacent regarding location of the bins store and collection points and noise (from moving between them) and smell have been taken into account. The locations of refuse bins and collection points are as previously approved within the site in order to satisfy the County requirements for collection (min 30m from the highway). Other locations were considered in previous application and this was the only acceptable. The submitted General Management Protocol states that bins will be carefully managed via a collection contract with the City Council at pre-arranged times and accessed from the Cowley Road via the new pedestrian access. It is considered that the agreed collection times and careful management of the site by A2 Dominion would reduce the potential for noise impact caused by moving bins. Whilst no details are submitted of the appearance of the bins storage or bins, they are required to be covered which would eliminate smell issues and again careful by the operator A2 Dominion would reduce potential for harm to the neighbour's amenities, bearing in mind they have already been approved in this location.
22. It is considered that a condition ensuring the accommodation is occupied and managed in accordance with General Management Protocol would enable effective on-site management of the students in all regards in accordance with policies CP1, CP10, CP19, CP21 of the OLP, HP5 of the SHP and CS25 of the CS.

Energy Efficiency:

23. Policy CS9 of the Core Strategy requires all developments to minimise their carbon emissions and are expected to demonstrate how sustainable design and construction methods would be incorporated. Policy HP11 of the SHP is specified to residential development including student accommodation and requires developments of this size to generate at least 20% of its total energy use through on-site renewable energy generation unless not feasible or financially viable.

24. An energy statement has been submitted and includes the location of PV panels on the roofs of Adams House and Riviera House, and the potential alternative provision of CHP, in order to achieve the 20% renewables in accordance with CS9. Further details of these measures could be secured by way of a planning condition.

Flood Risk:

25. Policy CS11 of the Core Strategy reflects national policy in the NPPF by resisting development that increases flood risk. A Flood Risk Assessment has been submitted as this is a more vulnerable use (residential) within an area of with in Flood Zone 1 (low risk of flooding). The FRA concludes that there would not be an unacceptable risk from fluvial flooding; the development would not increase risk of flooding elsewhere; and would employ a surface water drainage strategy based on SUDs to ensure the development would meet the minimum reduction in surface water runoff for brownfield sites and store the balance of water for all events up to and including 1 in 100 year event allowing for a 30% increase in rainfall as a result of climate change. The surface water drainage strategy based on SUDs can be secured via condition, as before, in accordance with Policy CS11 of the CS.

Ecology:

26. It is very unlikely that the proposed development would have an adverse impact on protected species. However, policy CS12 of the Core Strategy reflects the Council's statutory duties to give due regard to the need to enhance biodiversity when carrying out its functions. A development of the size proposed could make a meaningful contribution towards providing an improved habitat for swifts and so, if approved, a condition should be imposed requiring at least 8 swift boxes to be installed on the buildings in locations to be agreed first by the Council.

Trees/Landscaping:

27. The site is currently barren with no vegetation of note that would be affected by the proposed development. A landscape plan has been submitted showing tree planting & lawn along the Cowley Road frontage and lawn, shrub and tree planting within the site. The plan is acceptable in on the whole however further details are required of proposed tree and shrub species/ size and tree pits/ raised beds etc. These details can be secured by condition in accordance with the requirements of policy CP11 of the Local Plan.

Land Contamination:

28. A Contaminated Land Assessment has been submitted. This assessment outlines the remedial measures taken during the redevelopment of the site for commercial end use, and provides an updated conceptual site model for the proposed change of use to residential. No risks are identified as significant for a residential end use, and it is proposed to mitigate any risks from soft landscaped areas by the provision of a 300mm clean capping layer underlain

by a geotextile membrane. Verification measures are outlined in the assessment including photographic evidence of the depth of cover system and certification that the imported material is clean.

29. Appendix 2 contains correspondence with the local authority, which states that any excavated materials from the proposed new building will be removed from site and the duty of care documentation will be provided as verification.
30. Officers agree with this updated assessment and to secure the validation requirements a full validation report should be submitted and approved by the Council and secured by condition in accordance with CS22 of the CS.

Archaeology:

31. This application is of interest because it involves works to a Victorian town house associated with the prominent local photographer Henry Taunt and is a non-designated heritage asset for that reason. Therefore, bearing in mind the small scale of the proposed works to Canterbury House, an archaeological requiring building recording should be imposed to mitigate any harm on known or suspected elements of the historic environment of the people of Oxford and their visitors, including Victorian building detail, resulting in accordance with HE.2 of the OLP.

Conclusion:

- In light of the recent approval for change of use of these building to student accommodation under 15/02542/OUT, and for the reasons set out in the report above Officers' recommend East Area Planning Committee approved the application subject to and including conditions and the satisfactory completion of a S106 to secure a contribution to affordable housing and to delegate authority to the Head of Planning and Regulatory Services to issue the permission after the public consultation expiry date of 7th November subject to no new material issues arising before the end of that consultation.

Human Rights Act 1998

Officers have considered the Human Rights Act 1998 in reaching a recommendation to grant planning permission, subject to conditions. Officers have considered the potential interference with the rights of the owners/occupiers of surrounding properties under Article 8 and/or Article 1 of the First Protocol of the Act and consider that it is proportionate.

Officers have also considered the interference with the human rights of the applicant under Article 8 and/or Article 1 of the First Protocol caused by imposing conditions. Officers consider that the conditions are necessary to protect the rights and freedoms of others and to control the use of property in accordance with the general interest. The interference is therefore justifiable and proportionate.

Section 17 of the Crime and Disorder Act 1998

Officers have considered, with due regard, the likely effect of the proposal on the need to reduce crime and disorder as part of the determination of this application, in accordance with section 17 of the Crime and Disorder Act 1998. In reaching a recommendation to approve, officers consider that the proposal will not undermine crime prevention or the promotion of community safety.
