

Treasury Management Practice (TMP) 1 – Credit and Counterparty Risk Management

The Department of Communities and Local Government (CLG) issued Investment Guidance in 2010, and this forms the structure of the Council's policy below.

The key intention of the Guidance is to maintain the current requirement for Councils to invest prudently, and that priority is given to security and liquidity before yield. In order to facilitate this objective the guidance requires Councils to have regard to the CIPFA publication *Treasury Management in the Public Services: Code of Practice and Cross-Sectoral Guidance Notes*. This Council has adopted the Code and will apply its principles to all investment activity. In accordance with the Code, the Section 151 Officer has produced Treasury Management Practices (TMPs). This part, TMP 1, covering investment counterparty policy requires approval each year.

Oxford City Council regards a key objective of its treasury management activities to be the security of the principal sums it invests. Accordingly, it will ensure that robust due diligence procedures cover all external investment. The Council will keep under review the sensitivity of its treasury assets and liabilities to inflation, and will seek to manage the risk in the context of the whole organisation's inflation exposure.

Investments that are not part of treasury management activity

The following principles are required to be adopted as part of the Council's TMP1 in accordance with the Treasury Management Code of Practice 2017:

- The Council recognises that investment in other financial assets and property primarily for financial return and not treasury management purposes, requires careful management and monitoring. Such activity includes loans supporting service outcomes, investments in subsidiaries, and investment property portfolios.
- The Council has ensured that all of its non treasury investments are covered in its Capital Strategy, and has set out, where relevant, the Council's risk appetite and specific policies and arrangements for non-treasury investments. It is recognised that the risk appetite for these activities may differ from that for treasury management.
- The Council has compiled a schedule setting out a summary of existing material investments, subsidiaries, joint ventures and liabilities including financial guarantees and the Council's associated risk exposure.

This has been compiled based on the 2017/18 final accounts.

Annual Investment Strategy - The key requirements of both the Code and the investment guidance are that Councils set an annual Investment Strategy, as part of their Treasury Strategy for the following year, covering the identification and approval of the following:

- The guidelines for choosing and placing investments, particularly non-specified investments.
- The principles to be used to determine the maximum periods for which funds can be committed.
- Specified investments the Council will use.
- Non-specified investments the Council will use, clarifying the greater risk implications, and the overall amount of various categories that can be held at any time.

Maturity periods are defined as the remaining length of an investment period. Arranging a deal in advance by up to four weeks is not considered to add to the duration of the investment.

In addition to the investments identified below as Specified and Non-specified investments, the Council may provide loans to a company in which it has an interest. These loans are outside the limits specified in the tables below and may be matched by equivalent external borrowing. The loans will then be given at a rate that at least covers the Council's costs and that is compliant with State Aid requirements.

Specified Investments – These investments are sterling investments that would not be defined as capital expenditure and don't exceed a maturity period of one year, or where the maturity period is longer, the Council has the right to be repaid within twelve months if it wishes. These are considered low risk assets where the possibility of loss of principal or investment income is small. They include investments with:

1. The UK Government (such as the Debt Management Account deposit facility, UK Treasury Bills or Gilts with less than one year to maturity).
2. Supranational bonds of less than one year's duration.
3. A Local Authority, Parish Council, Community Council, Fire or Police Authority
4. Pooled investment vehicles that have been awarded a high credit rating by a credit rating agency, e.g. money market funds, rated AA by Standard and Poor's, Moody's or Fitch rating agencies.
5. A body that is considered of a high credit quality (such as a bank or building society) meeting the minimum 'high' quality criteria where applicable.

Additionally, and in accordance with the Code, the Council has set duration and value limits as follows:

Specified Investments - Limits on value and period

	Minimum credit criteria/colour banding	Max % of total investments / £ limit per institution	Max maturity period
Debt Management Office – UK Government	Not applicable	100%	364 days
UK Government Gilts	UK Sovereign rating	20%	364 days
UK Government Treasury Bills	UK Sovereign rating	20%	364 days
Bonds issued by multilateral development banks	UK Sovereign rating	20%	6 months
Money Market Funds	AAA	£25m	Liquid
Local Authorities, Fire and Police Authorities		20%	364 days
Term deposits with banks and rated building societies	Blue Orange Red Green	£15m or 20% of total investments whichever is the greater	Up to 1 year Up to 1 year Up to 6 Months Up to 100 days
Certificate of Deposit or corporate bonds with banks and building societies	Blue Orange Red Green	£10m or 20% of total investments whichever is the greater	Up to 1 year Up to 1 year Up to 6 Months Up to 100 days
Enhanced Cash funds		20%	6 months
Corporate bond funds		20%	6 months
Gilt Funds	UK sovereign rating	20%	6 months

The colour ratings above for the Term Deposits with banks and rated building societies and Certificates of Deposit or Corporate Bonds with banks and building societies link the durations in the right hand column to colour coding used in Link Asset Services's Credit List i.e. blue and orange coloured institutions recommend investments of upto a year according to the Link Asset Services Credit List

Non-Specified Investments – Non-specified investments are any other type of investment not defined as Specified. The identification and rationale supporting the selection of these other investments and the maximum limits to be applied are set out below. Overall Non-specified investments (excluding loans to a company in which the Council has an interest) will not exceed more than 25% of the previous year’s total investment portfolio or £24 million, whichever is the greater. The level of investment in a particular counterparty will be measured based on the amount of the initial investment. Non specified Investments would include any sterling investments with:

Non-Specified Investments - Limits on value and period

	Minimum Credit Criteria	Max % of total investments/£ limit per institution	Max maturity period
Local Authorities, Fire and Police Authorities		15% of total investments	Up to 2 years
Fixed term deposits with variable rate and variable maturities	Orange	15% of total investments	Up to 1 year
Fixed term deposits with variable rate and variable maturities	Yellow Purple	£10m or 20% of total investments	Up to 5 years Up to 2 years
Commercial paper issuance covered by a specific UK Government (explicit) guarantee		10% of total investments	Up to 1 year
Fixed term deposits with unrated Building Societies	Asset Base over £9bn	£3m – 20% of total investments	100 days
Commercial paper other		15% of total investments	Up to 1 year
Corporate bonds		15% of total investments	Up to 1 year
Other debt issuance by UK banks covered by UK Government (explicit) guarantee		15% of total investments	Up to 1 year
Floating rate notes		15% of total investments	Up to 1 year
Indirect Property funds		25% of total investments or £24 million, whichever is the greater	Medium to long term

The colour ratings above for the Term Deposits with banks and rated building societies and Certificates of Deposit or Corporate Bonds with banks and building societies link the durations in the right hand column to colour coding used in Link Asset Services’s Credit List i.e. investments with yellow coloured institutions are recommended for upto 60 months (5 years) according to the Link Asset Services Credit List.

The durational bands adopted in detail are:

- Yellow 5 years *
- Dark pink 5 years for Ultra-Short Dated Bond Funds with a credit score of 1.25
- Light pink 5 years for Ultra-Short Dated Bond Funds with a credit score of 1.5
- Purple 2 years
- Blue 1 year (only applies to nationalised or semi nationalised UK Banks)
- Orange 1 year
- Red 6 months
- Green 100 days
- No colour not to be used

The Link Asset Services' creditworthiness service uses a wider array of information other than just primary ratings. Furthermore, by using a risk weighted scoring system, it does not give undue preponderance to just one agency's ratings.

Typically the minimum credit ratings criteria the Council use will be a Short Term rating (Fitch or equivalents) of F1 and a Long Term rating of A-. There may be occasions when the counterparty ratings from one rating agency are marginally lower than these ratings but may still be used. In these instances, consideration will be given to the whole range of ratings available, or other topical market information, to support their use.

UK banks – ring fencing

The largest UK banks, (those with more than £25bn of retail / Small and Medium-sized Enterprise (SME) deposits), are required, by UK law, to separate core retail banking services from their investment and international banking activities by 1st January 2019. This is known as "ring-fencing". Whilst smaller banks with less than £25bn in deposits are exempt, they can choose to opt up. Several banks are very close to the threshold already and so may come into scope in the future regardless.

Ring-fencing is a regulatory initiative created in response to the global financial crisis. It mandates the separation of retail and SME deposits from investment banking, in order to improve the resilience and resolvability of banks by changing their structure. In general, simpler, activities offered from within a ring-fenced bank, (RFB), will be focused on lower risk, day-to-day core transactions, whilst more complex and "riskier" activities are required to be housed in a separate entity, a non-ring-fenced bank, (NRFB). This is intended to ensure that an entity's core activities are not adversely affected by the acts or omissions of other members of its group.

While the structure of the banks included within this process may have changed, the fundamentals of credit assessment have not. The Council will continue to assess the new-formed entities in the same way that it does others and those with sufficiently high ratings, (and any other metrics considered), will be considered for investment purposes.

The Monitoring of Investment Counterparties - The Council receives credit rating information (changes, rating watches and rating outlooks) from Link Asset Services on a weekly basis, and counterparties are checked promptly. On occasion ratings

may be downgraded when an investment has already been made. The criteria used are such that a minor downgrading should not affect the full receipt of the principal and interest. Any counterparty failing to meet the criteria will be removed from the list immediately by the Section 151 Officer, and if required new counterparties which meet the criteria will be added to the list. The Council also monitors counterparties against the limits specified below:

<u>Duration Limits (based on Fitch ratings)</u>		
Long Term Rating	Short Term Rating	
	F1+	F1
AAA	2 years	365 days
AA+	2 years	365 days
AA	2 years	9 months
AA-	2 years	9 months
A+	365 days	9 months
A	9 months	6 months
A-	6 months	3 months
