Dear Madam/Sir

OXFORD CITY COUNCIL PLAYING PITCH AND OUTDOOR SPORTS STUDY

Oxford City Council is undertaking a study of playing pitches and outdoor sports facilities throughout the City. This will update and replace an earlier study, which is now several years old.

There are many key objectives for the development of the study, some of which are as follows:

- During times of change for local authorities, the study will provide direction and set priorities for each sport, aligning with the local need
- It provides a robust need for capital funding
- It helps demonstrate the value of the leisure and parks services
- It is one of the best planning tools for pitch/outdoor sports facility protection and provides a basis for establishing new pitch requirements
- It provides better information to residents and other users of sports pitches/outdoor sports facilities
- It will assist the sports development team to identify where there is an under/oversupply of facilities

As part of the study, we are collating information on where local pitch (football, rugby, hockey, baseball Gaelic football and cricket) clubs and certain other outdoor sports clubs (bowls, tennis, netball and athletics) play, the provision of facilities and the quality and capacity of these facilities to meet demand from the local community and clubs for recreational play, competition and sports development.

Your contribution is valued and will be essential in the development of the study, informing any future recommendations and/or conclusions made. We therefore hope that you would kindly spend 10 to 15 minutes completing the attached questionnaire. If some of the questions are not relevant or too detailed, please just complete what you can and/or write any comments on a separate piece of paper.

All the information received from this questionnaire will be treated in confidence and used solely for the purpose of this study. All information is protected under the Data Protection Act (1998).

It would be greatly appreciated if you could complete the attached questionnaire and reply by email to cwarden@oxford.gov.uk by **Monday 28th February 2011**.

If you have any queries regarding this Survey, please contact me, Courtney Warden, on 01865 25 2729 or email cwarden@oxford.gov.uk

Many thanks in anticipation. We look forward to hearing from you and receiving your completed questionnaire.

Yours sincerely,

Courtney Warden
Development Officer (Oxford City Leisure and Parks)

Appendix 8a

Understanding the Playing Pitch Modelling for Football (2011 – 2016)

Please note that the figures below are only an example to aid understanding of the modelling process. Correct figures from the assessments undertaken can be found in Appendix 9 – 11.

Stage 1: Identifying teams and team equivalents

Adult teams	61
Junior teams	63
Mini teams	40
Total teams	164

Stage 2: Home games per team per week

Based on principle of one week home, one week away = 0.5 for adult and junior matches.

Based on the principle of home games only for mini football = 1

Stage 3: Total home games per week (*this is calculated by multiplying stage 1 by stage 2*)

Adult (61 x 0.5)	30.5
Junior (63 x 0.5)	31.5
Mini (40 x 1)	40

Stage 4: Temporal (peak) demand for games

	Sat am	Sat pm	Sun am	Sun pm	Midweek
Adult	-	43%	-	37%	19%
Junior	18%	1%	55%	8%	17%
Mini	65%	-	24%	-	11%

Stage 5: Pitches required to meet demand on peak days (*this is calculated by multiplying stage 3 by stage 4*)

	Sat am	Sat pm	Sun am	Sun pm	Midweek
Adult	-	13.1	-	11.3	5.8
Junior	5.7	0.3	17.3	2.5	5.4
Mini	26	-	9.6	-	4.4

Stage 6: Community pitches available to meet demand

	Secured Community Use	Community Use (non secured)	Adhoc Use	Total
Adult	25.8	14	10.5	50.3
Junior	7	-	-	7
Mini	13	-	-	13

Stage 7: Spare capacity or shortfall of pitches (this is calculated by subtracting stage 5 by stage 6)

Results

Assessment of supply and demand – Pitches with secured community use (local authority owned or community use agreement in place).

	Total Pitches	Peak Demand	Spare capacity/shortfall
Adult	25.8	13.1	+ 12.6
Junior	7	17.3	-10.4
Mini	13	26	-13.0

Scenario 1 - Pitches with secured community use (local authority owned or community use agreement in place) and those pitches that are accessible but there is no formal use agreement in place (i.e. private sports clubs, schools)..

	Total Pitches	Peak Demand	Spare capacity/shortfall
Adult	39.8	13.1	+26.6
Junior	7	17.3	-10.4
Mini	13	26	-13.0

Scenario 2 - This includes pitches in the assessment of supply and demand and those pitches in scenario 1 with no formal community use agreement that are only accessible on an adhoc basis (these are typically amongst university/college ownership).

	Total Pitches	Peak Demand	Spare capacity/shortfall
Adult	50.3	13.1	+37.1
Junior	7	17.3	-10.4

Assessment and scenario Overview for football pitch provision by area committee (2011 – 2016)

Assessment of Supply and Demand

This includes pitches that are Local Authority and those pitches that are outside Local Authority control but have a formal joint use agreement.

Scenario 1

This includes pitches that are Local Authority owned and also those pitches that are outside Local Authority control and have a joint use agreement in place or are accessible to sports teams for hire i.e. Private Sports Ground/Schools.

Scenario 2

This includes pitches within scenario 1, and those pitches that are accessible/used on an adhoc basis i.e. colleges/university pitches

Those figures indicated with a + indicate a spare capacity / under use and those with a – indicate an under supply / high usage.

*Please note; a strategic reserve of 10% **has not** been added to the figures as findings would not be significant at ward level. This has however been done for the city wide analysis.*
