

APPENDIX 2

The Central South and West Area Committee considered the report on 15 March 2006 and resolved:

“That the Executive Board be informed that the Committee notes the publication of the study and the establishment of a steering group; asks that a meeting be arranged, as soon as possible, between City and County Councillors representing the Broad Street area and the steering group to discuss how the study should proceed; would look for proposals to come forward through the normal democratic process in due course.”
