Introduction to the Museum Accreditation Scheme

1. In June 2006 the Museum of Oxford is applying to the Museum, Libraries and Archives Council (MLA) Museum Accreditation Scheme.

2. MLA's Museum Accreditation Scheme sets nationally agreed standards for UK museums. To qualify, museums must meet clear basic requirements on how they care for and document their collections, how they are governed and managed, and on the information and services they offer to their users.

3. A requirement of the Museum Accreditation application is the submission of a Business / Forward Plan for the Museum of Oxford. Signed and dated approval by the governing body must be submitted as part of the Accreditation application.

The Museum of Oxford Business Plan 2006-2009

4. The Museum of Oxford's Business Plan is a document that provides direction for and sets out the overall objectives of the Museum of Oxford. It identifies methods to achieve the museum's aims to increase users, increase income, reduce costs, provide greater community involvement, raise profile and develop partnerships.

5. The Business Plan summarises the nature of the service and quantitative and qualitative performance targets are reviewed and set.

6. The Business Plan identifies the museum's seven priority aims and how these support the council's priorities. These priority aims create shared ownership and values for the museum team and stakeholders.

7. A detailed action plan sets out the museum's key objectives. Targets, measures and goals are identified, creating a framework for planning work programmes, staff roles and for assessing performance.

8. The Plan summarises draft budgets for the service over the next 3 years and finally summarises key improvement activities for 2006-2009.

The Museum's of Oxford's Priority Aims

9. The Museum of Oxford has seven priority aims that provide direction for delivering and improving the museum service for its users. These are informed by and contribute to a wide range of corporate objectives, as summarised below.
