East Area Parliament	17.02.10	The committee requested that if possible funding to be allocated to the Barracks Lane Garden Project.	Barracks Lane Garden Project – the application is requesting funding to support a local food project. Need and targeting were not clearly identified and the application states it would not be viable without 100% funding. Due to the amount of budget available and the project focusing on health and food, the panel agreed it would be more appropriate for support through other agencies such as the Healthy Living

		<p>The committee requested that if possible the amount awarded to CIAO was increased.</p>	<p>Partnership.</p> <p>CIAO – The recommendation for 50% of their request was made on the basis that it was difficult to see from the application how they will work with the local community, if awarded a grant the recommendation includes a condition that further evidence is required to explain how they will do this before funding (if awarded) is released. The project is also receiving In kind support from the Councils Art Officer. The recommendation also took into consideration the demand on the budget available.</p>
