

## Oxford Standard Door Knocking Stats

In 7 days we called at 360 properties, and completed 147 surveys. Below is a breakdown of all the data gathered. Out of 142 people who completed the survey with us 72 have said they will come to one of the sessions (1pm to 3 pm = 43, 6pm to 8pm = 29)

The area referred to as 'Other' are any surveys that have been completed outside of our door knocking efforts.

The table below shows the results of our tenants prioritising areas of work to be carried out in their homes. They prioritised the works by giving a score to each area, 1 being their highest priority and 5 being their lowest priority. The higher the score the lower the priority.
