

Appendix 2 - Initial Equalities Impact Assessment

Blackbird Leys Procurement of a Delivery Partner

The project comprises the procurement of a development partner to work with the Council on plans for redevelopment of an area that has been identified for regeneration.

The partnership will providethecapacity and means to design a scheme for new private and affordable housing, new community facilities, improved public realm and new retail spaces.

The potential scheme itself would have health/wellbeing benefits and will provide new green spaces, new more energy- efficient homes which are cheaper to run, and vastly improved community spaces for delivery of local services.

Conclusion

The Initial Assessment is that the content of this report does not lead to any unjustifiable differential impact on relevant groups.
