Monitoring Framework

Local authorities have a statutory duty to monitor the effectiveness of their planning policies. This is established in Regulation 34 of the Town and Country Planning (Local Planning) (England) Regulations 2012, which requires LPAs to collect the relevant data and make it publicly available as part of an Authority's Monitoring Report (AMR). The Regulations prescribes what must be monitored, as follows:

Regulation 34 (1)	 Progress with the Local Development Scheme (LDS). Specifically, the title of local plans or Supplementary Planning Documents (SPD) in the LDS, for each: the timetable for preparation should be specified, the stage the document has reached in its preparation, and whether the documents are behind schedule, identifying why it is the case if relevant identifying LPs or SPDs adopted, specifying the date of adoption/approval.
Regulation 34 (2)	State when a policy is not being implemented, setting out the reasons why this is the case & identifying steps (if any) to implement.
Regulation 34 (3)	 Housing delivery Include data on the number of net additional dwellings and net additional affordable dwellings. a) in the period in respect of which the report is made, and b) since the policy was first published, adopted or approved.
Regulation 34 (4)	Neighbourhood planning Details to be provided where an authority has made a neighbourhood development order or neighbourhood development plan.
Regulation 34 (5)	Community Infrastructure Levy (CIL) Include information specified in regulation 62 (4) of the CIL Regulations 2010. The report should include details of CIL receipts and CIL expenditure for the reported year and provide summary details of CIL expenditure
Regulation 34 (6)	Duty to Co-operate Details to be provided of what action was taken during the period of the report in relation to the Duty to Cooperate, such as joint working, meetings, consultations.
Regulation 34 (7)	Make up-to-date data available as soon as possible in accordance with Regulation 35 – which requires a local authority to make documents readily available for inspection and comment at appropriate locations and online, for a minimum period of 6 weeks with respect to the local plan.

The monitoring framework is attached as Appendix xx and comprises the bulk of this document. It has been produced to outline how policies in the local plan will be monitored. It is comprised of indicators/ measures and targets specific to individual policies while cross-referencing to relevant parts of the Core Strategy. The set of indicators and targets that form the monitoring framework have been developed to provide a degree of flexibility to allow for adaptation as wider conditions change or as improved methods to monitor policies become available. As such they will be subject to regular review.

The monitoring framework does not specifically include development management statistics on performance, other than those that directly relate to an identified indicator within the framework. Prior approvals are also monitored separately.

It is expected that the monitoring data will be available for collection on at least an annual basis, unless indicated otherwise. For policies where clear outputs are required, such as those relating to housing delivery, specific targets have been included in the Monitoring Framework. This approach will help identify whether an annual target has been met and whether shortfalls exist. Performances against such targets can help to determine how well the Plan is working or what parts will require review or deletion.

For policies where it is not appropriate to attach a clear target, the framework will make use of indicators that lend themselves to identifying broad trends that can determine a direction of travel. This can include either an increase or a decrease in a recorded indicator.

For policies that provide helpful background information and where a specific target is not appropriate, the collected data will be labelled as a contextual indicator.

Monitoring Site Policies

Landowners and developers were involved in the development of the site allocation policies at a number of stages including the call for sites and commenting on the draft policies at the various consultation stages. This has given the authority a good understanding of which sites may be available, their potential uses and deliverability. This close liaison with landowners and developers will need to continue into the pre-application and planning application stages of the process to ensure the acceptability of any proposed development.

The successful implementation of the allocations made in this document is dependent on the timely delivery of the infrastructure required to support it. As such the involvement of the various service and utility providers has been vital to ensure that they are aware of the level of growth projected to enable the identification and addressing of any particular capacity issues in order to ensure that allocated sites are deliverable.

Monitoring Framework: Sites

LP Policy	Location	Acceptable uses	Site specific requirements
SP1	West End	 Planning permission will only be granted for redevelopment of station and Becket Street Car Park if it improves station, creates a strong sense of arrival to Oxford and is in Accordance with Oxford Station SPD. 	Oxpens and Island Site applications must be accompanied by site specific FRAs an measures.
SP2	Osney Mead	 Mixed use development including employment uses, academic uses, student accommodation, employer linked housing and market housing. Development of innovation quarter is encouraged. 	Site specific FRA with details of mitigation measures
SP3	Cowley Centre, Between Towns Road	 Retail led mixed use development including commercial leisure, community facilities, employment uses and residential. Other town centre uses may also be appropriate. 	 Regard should given to any Cowley Centre masterplan and proposals must not prodevelopment of the whole site. Improved bus stopping facilities Improved public realm with high design standard
SP4	Blackbird Leys Central Area	 Mixed use development including retail, start-up employment units, residential and community facilities. Other appropriate district centre uses including education, live/work units, sport and commercial leisure. 	 Consideration must be given to regeneration plan for Blackbird Leys area and proprogrammers of whole site. Assessment of onsite and neighbouring waste water capacity
SP5	Summer Fields School Athletics Track	Residential dwellings only	Enhanced pedestrian and cycle access across whole site
SP6	Diamond Place and Ewert House, Summertown	 Mixed use development including residential, employment and student accommodation uses Other town centre uses may be appropriate 	 Ground floor level retail Sufficient car and cycle parking at reasonable levels to serve local area Local temporary car parking provision during construction phase Cycle stands on site Enhanced pedestrian and cycle links to and through site
SP7	276 Banbury Road	 Housing Student accommodation Short stay accommodation Other town centre uses 	Uses resulting in active frontages onto Banbury Road and in compliance with Polic floor level
SP8	Unipart	B1/B2 employment uses, B8 uses where they support employment activities on site	Reduction in onsite car parking provision and enhancement of sustainable travel o
SP9	Oxford Science Park (Littlemore & Minchery Farm)	• B1 employment uses	Buffer alongside railway corridorReduced on site car parking provision
SP10	Oxford Business Park	B1/B2 employment uses only	 Reduction in onsite car parking provision and enhancement of sustainable travel of Biodiversity survey, esp of undeveloped plots
SP11	Sandy Lane Recreation Ground and Land to the Rear of the Retail Park	 Residential dwellings Enhanced outdoor sports facilities - at least 2 full sized football pitches and one junior pitch. 	 Some appropriately sited land should be safeguarded to allow for future developm for the Cowley Branchline. Planning permission will not be granted for any other u Residential development should be located on the western part of the site with ac Road.
SP12	Northfield Hostel, Sandy Lane West	 Residential, education or extra care accommodation Residential uses will only be granted if site is no longer needed for a school and hostel. 	• It must be demonstrated that there is no unmet need for extra care accommodation
SP13	Edge of Playing Fields, Oxford Academy	Employer linked housing only
