

# Agenda Item 8

Issues raised as possible recommendations are as follows:

- Support for the development of the Housing Development Working Group, and within its scope include engagement with tenants on internal design ideas in addition to those mentioned
- That tenant involvement in procurement is formalised and made less ad hoc
- Having a specific older people's tenant ambassador to ensure the specific needs of this group were being met.
- Replicate the Residents Panel just for Council tenants or find a way to get permission to engage with the subset that are tenants. The former could possibly be done through the use of permissions gained from the tenant satisfaction survey. A total of 420 people did give permission to be contacted in future.
- That tenant ambassador involvement in appointments, particularly senior appointments, in Housing be formalised.
