Introduction and overview

1. The Climate and Environment Panel met on 09 March 2023 to consider a report on [Fleet Decarbonisation](#). The report updated the Panel on the topic of fleet decarbonisation and next steps.

Summary and recommendations

2. The Panel was pleased to note that electric vans and other Large Goods Vehicles are being used by Oxford Direct Services Ltd (ODS) and recognised that it would be difficult to decarbonise the whole fleet at this time. However, the Panel considered that greater attention should be given to exploring how ODS could move towards including large electric cargo bicycles in its fleet.

Recommendation 1: That the Council should commit to working with ODS to explore how ODS could include electric cargo bicycles in its fleet.
