

Why do an Equalities Impact Assessment (EqIA)?

1. Equalities Impact Assessment (EqIA) is part of Oxford City Council's **Public Sector Equality Duty (PSED) (Equality Act 2010)**.

The General PSED enables Oxford City Council to:

- a. **identify and remove discrimination,**
 - b. **identify ways to advance equality of opportunity,**
 - c. **Foster good relations.**
2. **An EqIA must be done before making any decision(s)** that may have an impact on people and/or services that people use and depend on.
 3. **An EqIA form is one of many tools** that can simplify and structure your equalities assessment.
 4. We are passionate about equalities, and we highly recommend that **Corporate Management Team (CMT) reports and all projects must attach an EqIA.**

For questions, queries, and a chat about how to do your EqIA, please email your EDI officers:

1. Mili Kalia – milkalia@oxford.gov.uk
2. Sobia Afridi- safridi@oxford.gov.uk

Please do refer to our SharePoint Page for support

A good EqIA has the following attributes:

1. **Comprehensively considers the 9 protected characteristics.**

1. Age	6. Race & Ethnicity
2. Disability	7. Religion or Belief
3. Gender Reassignment	8. Sex
4. Marriage & Civil Partnership	9. Sexual Orientation
5. Pregnancy & Maternity	

2. It has **considered equality of treatment** towards service users, residents, employees, partners, council suppliers & contractors, and Council Members
3. Sufficiently considered **potential and real impact** of proposal or policy on service users, residents, employees, partners, council suppliers & contractors, and Council Members.
4. **Systematically recorded and reported** any potential and real impact of your proposal or policy on service users, residents, employees, partners, council suppliers & contractors, and Council Members
5. **Collected, recorded, & reported sufficient information and data** on how your policy or proposal will have an impact.
6. Offers **mitigations or adjustments** if a PSED has been impacted.
7. Provides clear **justifications** for your decisions.
8. It is written in **plain English** with simple short sentence structures.

16.

Please outline the consequences of not implementing this activity.

For example,

- Existing activity does not fulfil Corporate Objectives,
- existing activity is discriminatory and not fulfilling Council's PSED, ... to name a few.

The Council Strategy 2024 to 2028 sets out the Council's five high level strategic aims and priorities for the years 2024 to 2028, which are intrinsically linked with supporting all people who live in, work or visit Oxford.

If the Council Strategy 2024 to 2028 is not implemented there may be an adverse impact on some of the most vulnerable citizens in the city.

Without the Council Strategy 2024 to 2028, the Council may not be able to allocate resources on a priority basis to tackle inequalities or to monitor impact.

Strategic aims and priorities also enable the Council to pay attention to impact of their work on the 9 protected characteristics.

Oxford has an expanding working age population, the scope to deliver positive impact through the 'Inclusive Economy' strand is promising. However, close monitoring of impact on the following groups are needed- 1. Disability, 2. Gender, 3. Race and Ethnicity.

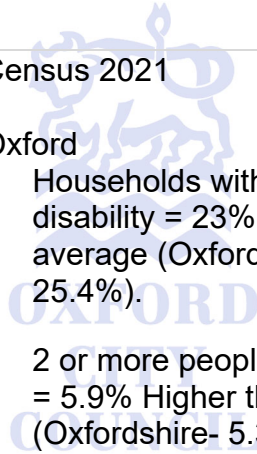

For now, the overall impact for this Equalities Assessment has been viewed as neutral.

Service Plans will outline specific actions that will impact on this protected characteristic.

The Council's EDI strategy sets out how we will approach equalities issues when developing strategies and policies, and sets out the governance process to give

www.oxford.gov.uk

There is a very slight decrease in the percentage of residents who are separated (down from 2% to 1%) and those who are widowed (down from 5% to 4% of the 16 plus population).

Out of those residents who are married, just under 1% are married to the same sex (414 residents in total) and 99% are married to the opposite sex. This is about in line with the national average.

For those within the category 'registered in a civil partnership,' 44% are with the opposite sex while 56% are with the same sex. The total number of residents of Oxford who are in a civil partnership is 344.

The ongoing work will have a positive impact on this group if the actions take on a targeted, strategic, informed and joined-up approach.

Close monitoring of impact and gaps will enable the Council Strategy 2024 to 2028 to deliver inclusive and equitable results.

'Other ethnic groups' experienced a percentage increase of 2.3% with respect to the previous census. 'Any other ethnic group' subgroup saw the largest increase (+2.1%) from 0.7% in 2011 to 2.8% in 2021.

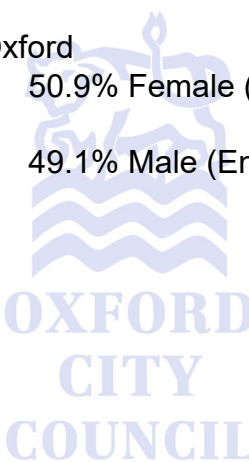

In terms of multiple ethnic group households, the largest proportion of households are still those where all household members have the same ethnic group – 47.3% (26,105 residents). Compared to 2011, the biggest increase was experienced in households where Ethnic groups differ within partnerships (+2.7%). The largest decrease from the previous census was recorded in One person households (-4.0%).

Oxford Brookes and the University of Oxford had 32,930 full time students and 9,125 part time students enrolled for the academic year 2018-19.

Between 2008/09 and 2018/19 the undergraduate population declined by 2,200 (-7%) and the postgraduate population increased by 2,325 (+20%).

This has resulted in a similar number of students and an older age profile. The majority of University of Oxford students live within Oxford City although some part time students might not be Oxford residents. Oxford Brookes has a campus in Headington, two campuses close to Oxford (in Wheatley and Harcourt Hill, Botley) and a campus in Swindon.

The ongoing work will have a positive impact on this group if the actions take on a targeted, strategic, informed and joined-up approach.

Close monitoring of impact and gaps will enable the Council Strategy 2024 to 2028

to deliver inclusive and equitable results.
