NAME	AREA	ISSUE(s)	RESPONSE
Martin Audley	Marsh Rec	<ul style="list-style-type: none"> • Feels we should not be giving staff free permits 	There is an operational need – agreed by CEB/Scrutiny as an alternative to just charging evenings and weekends as originally recommended
Anita Jassi	Walton Well Road	<ul style="list-style-type: none"> • Allotment holder • Asking if they can have a reduced fee permit • Asking for maintenance of car park – signs etc 	Agreed with Cllr Cook that they would qualify for reduced fee. Mr S Creed	Cutteslowe	<ul style="list-style-type: none"> • Regular user of the car park (weekends with his son) • Admits that tariff is reasonable now but fearful it will increase over the next few years. • No direct bus route from home – so therefore needs to drive 	Offer standard permit of £50 per annum as a regular user

Very modest level of charging would be surprised if it put people off playing.</p> <p>Concerned if they actively encourage their members to park in resident areas – but little we can do about this.</p>
Sergei Gutnikov		<ul style="list-style-type: none"> • Feels there is no benefit to change status quo- car parks not overcrowded. • Small tariffs will barely cover set up and running costs • Higher tariff would deter usage 	Financial analysis indicates payback within 3 year – (assuming estimates of usage were correct)
Gill Smith	Hinksey Park	<ul style="list-style-type: none"> • Very regular user of the different facilities • Praise for Ian the park keeper • Gets “terrific value” from Hinksey and thinks the charges are 	As a slice card holder will get parking for £20 a year

Commuter parking will be monitored.
Adrian Arbib	Walton Well Road	<ul style="list-style-type: none"> • Local resident – drives elderly dog to the area for a short walk • Feels that those who have a resident permit should be allowed to park free of charge. Timothy Green		<ul style="list-style-type: none"> • Comments that all the areas are not within the auspices of the labour majority • Parks are provided to encourage sports and leisure an feels that charging will be counterproductive • States that dog walkers will go elsewhere – thereby no revenue from them • Has noted that the ticket machines have started to be installed before consultation ends - 	<p>Tariffs are low – there are concessions for regular users</p> <p>Needed to get on with civil works so that charging can be implemented asap.</p> <p>Agree that with hindsight this gave the wrong impression.</p>

Sarah Beck	Alexandra Park	<ul style="list-style-type: none"> • Local resident concerned that she will not be able to continue using the area to park in without incurring high costs. • Claims that the car park is currently used by those who live or work in the area and is not used by tennis players or users of the park. • General comments about restrictions that the County Council put on for the number of permits and visitor permits – but confuses this with the City Council 	

Alan Dobson	Cotteslowe	<ul style="list-style-type: none"> • Comments regarding machines going in before the consultation period has finished. • Questions the wording of the reasons for proposals – and suggests that it is not clear English. • Feels that there will be displacement into resident parking areas – which already is fairly congested at peak times. • Feels that because of displacement, income targets may not be achieved. 	
Suzanne McIvor	Cotteslowe	<ul style="list-style-type: none"> • Has responded to previous consultation as Secretary of the Harbord Road Area Residents' Association. • Still concerned that the proposed income estimates are based on estimated and not actual data – believes that they are overestimates and that the scheme will take longer to payback than anticipated. • Displacement into residential area will create a further nuisance for local residents given that the County Council are not prepared to introduce a Resident Parking Zone. • Concerned that there will be overnight parking – as a ticket will last for up to 24 hours.

		<ul style="list-style-type: none"> • Feels that the charges will still be detrimental to park users and local residents • Fears that unless signs reminding people to pay are big, many users will inadvertently end up with penalty notices – however would not be appropriate to ruin the look of the park with lots of signs • Querying civil works taking place during the consultation process 	
Maurice Mendelson QC	Walton Well Road	<ul style="list-style-type: none"> • States that Port Meadow is one of the oldest commons in the country and that it not right to charge for access to it. • Current timed ticket system works well and no justification to change it to one where charging takes place. • Procedural objection – machines installed prior to consultation ending 	Existing machines upgraded , but still producing free vend tickets.
Philippa Scoones	Walton Well Road	<ul style="list-style-type: none"> • Local resident and permit holder • Use the car park twice daily – either to walk dogs or go to allotment • Feels that consideration should be given to existing permit holders and those using allotments 	Would be eligible for £20 a year permit
